The average seasonal snowfall is defined as the official snowfall depth for Milwaukee as recorded by the National Weather Service (www.nws.noaa.gov/climate/index.php?wfo=mkx). Currently this amount is forty-seven (47) inches of fallen snow per winter season. This contract for snow plowing and salting will include up to twenty one (21) inches over the average seasonal snowfall or sixty-eight (68) inches of snow per season. If the City receives complaints regarding any aspect of the operations, the City reserves the right to recall contractor. The sum of both of these amounts will be the basis for determining the low bid.

CONTRACTOR must also include a cost for a single snow plowing/removal/clean-up operation to be paid if and when DPW-Parking requires these services after an annual snowfall per season in excess of sixty-eight (68) inches. The total amount listed for additional services can be no higher than the amount listed for all snow services divided by 34.

All bonds must be executed by a surety company authorized to do business in the State of Wisconsin and must be accompanied by a Power-of-Attorney for the Attorney-in-Fact.

C. Non-Appropriation:

City shall be bound hereunder only to the extent that funds shall have been appropriated and budgeted or are otherwise available for the purpose of this contract. In the event no funds or insufficient funds are appropriated and budgeted or are otherwise unavailable by any means whatsoever in any fiscal period for payments due under this contract, then City shall immediately notify the successful Bidder of such occurrence and this contract shall terminate on the last day of the fiscal period for which appropriations were received without penalty or expense to the City of any kind whatsoever.

VII. INSPECTION:

All work shall be subject to inspection and examination by DPW-Parking at any and all times during or after the performance of said service and at any and all places where such service is or has been performed. DPW-Parking shall have the right to reject defective or otherwise unsatisfactory service and require its correction. Rejected services shall be corrected in a timely manner and to the satisfaction of and without charge to the DPW- Parking.

Such inspection shall not relieve the contractor from any obligation to monitor performance of the work in accordance with the contract specifications.

Notice of unsatisfactory work shall be provided in writing.

VIII. LIQUIDATED DAMAGES FOR WORK NOT PERFORMED:

In the event the CONTRACTOR fails to execute the work with such diligence as to ensure its completion in accordance with the work requirements, DPW Parking may terminate the contract for lack of compliance. If this were to occur, the performance bond will be used to pay for a successor contractor.

IX. CHANGES IN WORK:

DPW Parking may make changes to the scope of the contract. Such additions or deletions shall not invalidate the contract nor shall such changes relieve the CONTRACTOR from any of the CONTRACTOR'S obligations under the contract or any guarantee given by the CONTRACTOR and CONTRACTOR shall not alter the unit bid price as a result of this change, unless by mutual agreement between both parties.

Except for the purpose of affording protection against any emergency endangering life or property, the CONTRACTOR shall make no change in the specified work without a written notice from DPW-Parking authorizing the change.

X. SERVICE CONTRACT WAGES:

A. The CONTRACTOR shall comply with Chapter 310-13 of the Milwaukee Code of Ordinances regarding the minimum living wage to be paid to all workers performing services as specified in this official notice 10-2014. Adherence to a minimum requirement is mandatory for all Department of Public Works' service contracts.

The CONTRACTOR agrees to prepare and submit an affidavit, **Form J**, within ten days following CONTRACTOR's completion of the contract, and to procure and submit a like affidavit to the Department of Public Works from every subcontractor employed by the CONTRACTOR regarding every person employed on or under this contract or subcontract. Said affidavits shall certify that each and every employee has been paid in the full amount of not less than \$9.39 per hour and that there has not been nor it to be any rebate or refund of any part of said wages by the employee to the employer.

- B. On March 1, 2014, the minimum hourly rate shall be adjusted to the amount required to produce for 2080 hours worked, an annual income equal to the U.S. Department of Health and Human Services most recent poverty guideline for a family of three. CONTRACTOR's wages must be increased annually to meet any changes indicated by the CITY.

See Exhibit B for service contract wage provisions.

XI. INVOICING:

- A. DPW Parking will authorize payment subject to the terms and conditions of the contract upon receipt of an invoice from the CONTRACTOR.

The CONTRACTOR shall submit invoices monthly in a timely manner, including all documentation and forms as required. Final payment is predicated upon services performed as deemed acceptable by the DEPARTMENT.

- B. It is the City's policy to pay all invoices within 30 days. If the City does not make payment within 45 days after receipt of properly completed supporting payment and other required contract documentation, the City shall pay simple interest beginning with the 31st calendar day at the rate of one percent per month (unless the amount due is subject to a good-faith dispute and, before the 45th day of receipt, notice of the dispute is sent to the contractor by first-class mail, personally delivered, or sent in accordance with the notice provisions in the contract).

See Exhibit C for prompt payment policy ordinance.

If there are subcontractors, consistent with s.66.0135(3), Wis. Stats., the prime contractor must pay the subcontractors for satisfactory work within seven days of the contractor's receipt of payment from the City of Milwaukee, or seven days from receipt of a property submitted and approved invoice from the subcontractor, whichever is later. If the contractor fails to make timely payment to a subcontractor within 7 days of receipt of payment from the City or 7 days from receipt of a properly submitted and approved invoice from the subcontractor, whichever is later, and that if the prime contractor fails to make payment within 7 days, the CONTRACTOR shall pay interest at the rate of 12 percent per year, compounded monthly, beginning with the 8th calendar day. Reference Common Council File No. 101137 adopted January 2011.

- C. Invoices shall be subject to adjustment for **work not performed, untimely performance**, and **damages**, if any, for which CONTRACTOR is liable. DPW- Parking shall retain adjustments for damages until such time as the actual cost of the adjustment can be determined.

D. Contractor must invoice the City monthly beginning with the signed date of this contract through October 1st for the lawn services and November 1st and continuing through April 1st for snow plowing. If snow occurs before or after these dates, the contractor will undertake whichever landscaping services is required and there will be no additional payments made.

XII. VEHICLE/EQUIPMENT RESPONSIBILITY:

The CONTRACTOR assumes all responsibility to observe all municipal, state, and federal laws and regulations applicable to the safe operation of their vehicles and equipment used in the performance of the service described herein.

XIII RIGHT OF THE CITY TO TERMINATE CONTRACT:

In the event of default by the contractor or if this contract is assigned without the written consent of the City, or if at any time the City determines that the performance of the work under this contract is being unnecessarily delayed, or that the contractor is violating any of the conditions of this contract, or that the contractor is executing the contract in bad faith or otherwise not in accordance with the terms of said contract, then the Commissioner may service written notice upon the contractor and his/her surety of the City's intention to terminate this contract in 48 hours.

If during the term of this contract or extension thereof, the contractor or any of its duly elected officers if a corporation is charged in a warrant with a felony, the Commissioner acting on behalf of the City of Milwaukee shall reserve the right to suspend the operation of the contractor under this contract pending the determination of such criminal action, if the Commissioner deems if necessary for the best interests of the City.

XIV. GENERAL CONDITIONS:

A. Inclement Weather/Holidays:

In the event of inclement weather during a mowing cycle, CONTRACTOR must mow all locations on the first day following the end of the inclement weather. Failure to do so may result in contract termination.

The CITY recognizes New Year's Day, Memorial Day, Independence Day, Labor Day and Thanksgiving Day, and Christmas Day. All holidays granted by the Contract Administrator shall be time extensions only, and shall not entitle the CONTRACTOR to any additional compensation for any reason.

B. Company Personnel Standards and Resource Commitment:

Only qualified personnel shall supervise and perform maintenance services in this contract. If in DPW- Parking's sole discretion, any of the CONTRACTOR'S personnel are not performing satisfactorily in the delivery of services to be furnished hereunder, the CONTRACTOR shall upon notice from the DPW- Parking, remove any such personnel and replace them with satisfactory personnel. Furthermore, the Contract Administrator may require replacement of CONTRACTOR'S supervisory personnel on site upon written determination that such supervisor is substantially frustrating the progress or completion of the work or any other contract obligation. There shall be at least one employee on each crew who speaks fluent English.

The CONTRACTOR shall use all reasonable care consistent with its rights to manage and control its operations, not to employ any persons or use any labor or have any equipment or permit any condition to exist which shall or may cause or be conducive to pose any liability to the general public as well as any activity to be construed as a nuisance. DPW Parking retains the right to require the CONTRACTOR to halt all work activities until such conditions are resolved. CONTRACTOR'S failure to resolve any and all conflicts to the satisfaction of the contract administrator shall be considered a breach of contract, and subject to termination.

- XV. **MAINTENANCE OF EQUIPMENT:** All trucks, plows and equipment covered by these specifications shall remain the property of the contractor and shall be fully maintained in good working order by the contractor at his/her own expense.

The contractor shall furnish all fuel and oil required, shall maintain the equipment in good repair, and shall be responsible for all costs incurred due to equipment breakdown and abuses which may occur while in service for plowing and /or salting.

- XVI. **SUPERVISION OF WORK:** Continuous supervision of all operations of work including subcontractors shall be provided by the contractor. The contractor shall designate a representative in charge who shall be fully authorized to act for the contractor and to receive orders from the Commissioner or his designee for the proper execution of the work or notices in connection therewith. Upon award of contract, the contractor shall deliver a list of the representatives in charge and telephone numbers to the Commissioner's designee and any subsequent changes shall be promptly reported. Representatives of the parking section of the Department of Public Works will monitor plowing, salting, and/or snow removal work and verify work hours and completion operations.

XVII. CHANGES IN CONDITIONS: At any time without notice to the surety, the Commissioner may make any changes in the work by written order within the general scope of the contract, including but not limited to:

Manner of performance or procedure
Direction and instructions; and
Employee qualifications

No such written order shall be construed to entitle the contractor to any claim for adjustment in rates or equity.

XVIII. COMMUNICATIONS: Contractor shall provide the City of Milwaukee with a telephone number that shall be staffed during City business hours between 8:00a.m. and 5:00 p.m. In addition, contractor will provide the City with off-business hours telephone numbers. All telephones are to be staffed by contractor or his employees. Contractor shall respond to all contacts by City personnel with thirty (30) minutes of calls to contractor.

When City staff attempt to make initial contact with contractor for service and if contractor fails to answer or return calls to City staff within one (1) hour, the City at its discretion may utilize other contractors or City shall undertake the work required. This would be considered a default of the contract and all sanctions available to the City may be applied against the contractor including and up to termination of the contract.

XIX. RESPONSIBILITY: The contractor shall be responsible for any service, damage, loss of contents, components, accessories, or attachments while vehicles are in service under this contract.

[REMARKS]

Exhibit A:
Small Business Enterprise (SBE)
Provisions

City Of Milwaukee

Department Of Public Works

Small Business Enterprise (SBE) Provisions

I. General

- A. In accordance with Chapter 370 of the Milwaukee Code of Ordinances, Small Business Enterprise (SBE) participation is required in all contracting activities of the Department of Public Works. The ordinance requires that certified SBEs be utilized for 25% of the total dollars annually expended through prime contracts or subcontracts for Construction and the purchase of Goods and Services. For the purchase of Professional Services the requirement is 18%. To that end, the Commissioner of Public Works, as a contracting officer for the City, requires all bidders to utilize SBEs as subcontractors and material suppliers on all contracts. For this contract, bidders are required to achieve the minimum percent of SBE participation listed in the Acknowledgements page/section and/or the Official Notice document.
- B. The prime contractor shall prepare and submit accurate and timely SBE utilization forms and reports to the Department of Public Works. The reports shall include, but not be limited to, Compliance Plan (Form A), monthly utilization (Form D), and SBE subcontractor payment certification (Form E) forms as directed. Failure to submit the required forms and reports to the Department of Public Works may result in disqualification of future bids, delay of payments, or other appropriate sanctions. Final contract payments will not be made until final SBE utilization reports and SBE subcontractor payment certification forms are on file with the Department of Public Works.
- C. During the performance of this contract, the Department of Public Works reserves the right to conduct compliance reviews. If the contractor is not in compliance with the specifications, the Commissioner of Public Works will notify the contractor in writing of the corrective action that will bring the contractor into compliance. If the contractor fails or refuses to take corrective action as directed, the Department of Public Works may take one or more of the actions listed below:
1. Terminate or cancel the contract, in whole or in part.
 2. Consider possible debarment of the prime contractor from bidding.
 3. Withhold payments on the contract.
 4. Any other remedy available to the City at law or in equity.

II. Definitions

- A. "SMALL BUSINESS ENTERPRISE" (SBE) means a small business concern that is 51% owned, operated and controlled by one or more individuals who are a minority, woman and/or a small business owner (who is at an "economic disadvantage"). The individuals must have day-to-day operational and managerial control and interest in capital, financial risks and earnings commensurate with the percentage of their ownership.
- B. "OWNED, OPERATED AND CONTROLLED" means a business which is one of the following:
1. A sole proprietorship legitimately owned and operated and controlled by a minority, women or an individual at a disadvantage as defined in Chapter 370.
 2. A partnership or joint venture legitimately owned, operated and controlled by individuals who are minorities, women or individuals who are at a disadvantage and who own at least 51% of the beneficial ownership interests in the enterprise and who hold at least 51% of the voting interests of the enterprise eligible as defined in Chapter 370.

3. A corporation legitimately owned, operated and controlled by one or more individuals who are a minority, woman or individual at a disadvantage and who own at least 51% of the outstanding shares and who hold at least 51% of the voting interests of the corporation eligible as defined in Chapter 370.

III. SBE Utilization Requirements

- A. Each prime contractor shall utilize SBE to the minimum percent listed in the Acknowledgements section/page and or Official Notice Document for this contract. Note that the prime contractors shall be required to attain SBE participation on their base bid excluding specified allowances, alternatives, and change orders. SBE commitments relative to contract award shall be based upon the approved SBE Compliance Plan (Form A).
- B. The determination of SBE utilization shall be based on the following criteria:
 1. The firms identified as SBE by the prime contractor on the SBE Compliance Plan (Form A) must be certified by the Office of Small Business Development prior to bid opening.
 2. The prime contractor shall be credited for the entire expenditure to SBE firms only if all of the identified scope of work is performed directly by the certified SBE firm.
 3. The prime contractor shall be credited for the entire expenditure to SBE manufacturer only if the manufacturer produces goods from raw materials or substantially alters them for resale. Only 20% of the SBE goals may be expended for SBE suppliers that do not manufacture products they supply.
 4. The prime contractor shall count toward the SBE requirement only those payments to SBEs who perform a commercially-useful function in the actual performance of the contract. While that generally means an SBE should be engaged in direct contract work, a "commercially-useful function" may also include management of a third tier subcontractor. For example, while an SBE trucking subcontractor is always expected to perform some direct work on the project, in some cases it may become necessary to subcontract work out to one or more third tier subcontractors. If a third tier subcontractor is also an SBE, the full amount of the work performed by that third tier SBE can be counted toward SBE participation. However, if the third party subcontractor is not an SBE, the prime contractor may only count 20% of the amount being subcontracted to the third tier non-SBE subcontractor. SBEs are required to notify the Department of Public Works if they subcontract out work so that the Department can determine how much, if any, of the subcontracted work can be counted toward the SBE requirement. The Commissioner of Public Works will make the final determination and evaluation of whether the SBE is performing a commercially-useful function.
- C. The contractor, by signing and submitting a bid, certifies that the contractor understands the provisions of Chapter 370 and knows of and intends to comply with them. The completed SBE Compliance Plan (Form A) must be submitted by the apparent low bid contractor within three (3) working days after the identification of the "low bidder."
 1. Information on Form A shall include, but not be limited to:
 - a. The names, addresses, telephone numbers, SBE Certification designation and contact person names for the certified SBE contractors that will participate on the project as subcontractors or suppliers;
 - b. A description of the scope of work to be performed by the SBE on this project; and
 - c. The SBE contractor dollar value(s) and corresponding percentages that the dollar values represent of the total contract amount.

2. Listing an SBE on the Compliance Plan (Form A) shall constitute a representation that the contractor has communicated directly with the SBEs listed. If awarded the contract, the bidder will enter into a subcontract with the firm for the portion of the work listed.
3. SBE participation is an element of bid responsiveness. Failure to meet the specified SBE requirements will render the bid unresponsive. The contract may then be awarded to the next apparent low bidder. Under certain circumstances, failure to meet specified SBE requirements after submission of an apparent low bid may result in surrender of the bidder's bid bond.
4. Only SBEs that have been certified by the Office of Small Business Development may be listed on the SBE Compliance Plan (Form A) and counted towards the percentage requirements on this project. A listing of the currently City certified SBE firms is maintained at:

Office of Small Business Development
200 East Wells Street
City Hall, Room 606
Milwaukee, Wisconsin 53202

- D. After execution of the contract, if for any reason an SBE cannot perform, the prime contractor shall contact the Commissioner of Public Works for approval to substitute another certified SBE firm. The prime contractor must submit a written request for substitution which specifies the reasons for the request. Approval must be obtained prior to making substitutions. Any difference in the cost occasioned by such substitution shall be borne by the prime contractor. If the prime contractor cannot find another certified firm to do the work at a comparable price, a non-SBE firm may be substituted with the approval of the Commissioner of Public Works.
- E. If the prime contractor has a problem in meeting the SBE requirements or if any other problems relative to SBE(s) arise during the completion of this project, the prime contractor shall immediately contact the Commissioner of Public Works.
- F. Certification from programs other than the Office of Small Business Development is neither accepted by the City of Milwaukee nor do they have any bearing whatsoever on the eligibility criteria established by the City of Milwaukee.
- G. Right to Appeal.

All contracts awarded under ss.7-14-2 and 7-22 of the City Charter shall be awarded by the Commissioner of Public Works to the lowest responsible bidder determined in accordance with applicable City ordinances for participation of the Office of Small Business Development. Following the opening of any bid involving a determination under applicable City ordinances for participation of SBE, the Commissioner of Public Works shall make a written recommendation as to the lowest responsible bidder and notify all bidders by publication in an official City newspaper as to the content of the written recommendation. Any bidder who objects to the recommendation on grounds of determinations made under applicable City ordinances for participation of SBE may appeal the recommendation on such grounds by filing a written appeal with the Commissioner of Public Works within five (5) working days of the date of publication. The appeal shall state the specific objection to the recommendation, include supporting documentation and specify an alternative recommendation. The Commissioner of Public Works shall schedule a hearing before an appeals committee consisting of the Chair of the Economic Development Committee or the Chair's designee, a member of the Economic Development Committee selected by the Chair and the Director of the Office of Small Business Development to be held within five (5) days of receipt of the appeal. The Committee shall have authority by majority vote to affirm or set aside the recommendation of the Commissioner of Public Works and its decision in this regard shall be final. In the event a timely appeal, meeting the requirements above is not filed, or the Committee affirms

the Commissioner's recommendation following a timely appeal, meeting the requirements above, the Commissioner shall make an award in accordance with the recommendation.

Service Contract Wage
Requirement Provisions

**Department of Public Works
City of Milwaukee
Service Contract Wage Requirement Provisions**

I. General

- A. In accordance with Chapter 310-13 of the Milwaukee Code of Ordinances, adherence to a minimum wage requirement is mandatory for all Department of Public Works' Service Contracts. The ordinance requires that all workers, permanent or temporary, employed in any work performed as part of a service contract, as defined in II B herein, awarded after December 31, 1995, shall receive and be paid a sum of not less than \$6.05 per hour. **On March 1, 1996, and each March 1 thereafter, the minimum hourly wage shall be adjusted to the amount required to produce, for 2080 hours worked, an annual income equal to the U.S. Department of Health and Human Services most recent poverty guideline for a family of three. No contractor may use the minimum wage requirement of this subsection to reduce the wage paid to any person employed by the contractor as of December 31, 1995.**
- B. The Contractor agrees to prepare and submit an affidavit, Form J, within ten days following the Contractor's completion of the contract, and to procure and submit a like affidavit from every subcontractor employed by the contractor to the Department of Public Works regarding every person employed on or under this contract or subcontract. Said affidavits shall certify that each and every employee has been paid in full the amount of not less than \$9.39 per hour and that there has not been, nor is to be, any rebate or refund of any part of said wages by the employee to the employer.
- C. During the performance of this contract, the Department of Public Works reserves the right to conduct compliance reviews. If the Contractor is not in compliance with the specifications, the Commissioner of Public Works will notify the Contractor in writing of the corrective action that will bring the contractor into compliance. If the contractor fails or refuses to take corrective action as directed or if the contractor, prime or sub, submits any documents which contain any fake, misleading or fraudulent information or if the contractor or subcontractor fails to comply with this ordinance, the Department of Public Works may take one or more of the actions listed below:
1. Withhold payments on the contract.
 2. Terminate, suspend, or cancel the contract in whole or in part.
 3. After due process, consider debarment of the contractor from bidding for a one-year period after the first violation and for a three-year period after the second.
 4. Any other remedy available to the City at law or in equity.

Service Contract Wage Requirement Provisions**

II. Definitions

- A. Professional Service Contract – any contract in which the majority of workers engaged in the performance of the contract perform work which:
 - 1. Is predominantly intellectual and varied in nature, as opposed to work which involves routine mental, manual, mechanical or physical labor.
 - 2. Requires advanced knowledge in a field of science or learning customarily acquired by a prolonged course of specialized intellectual instruction and study in an institution of higher education or a hospital.
- B. Service Contract – any contract with the City for the provision of service to any City department or agency with a budget under the control of the Common Council which has a value exceeding \$5,000.00. Each bid specification or request for proposal (RFP) will be reviewed and a determination made as to whether the proposed contract constitutes a service contract. A service contract does not include any contract which involves the purchase of goods, a professional service contract, a Department of Public Works' contract regulated under S 309-25, a contract administered by the Office of Community Block Grant Administration (CDBG), or a contract with the Milwaukee Public Schools.

III Service Contract Utilization Requirements

- A. For every service contract as defined in II B above, the minimum hourly wage specified in I B above shall be kept posted by the contractor at the site of the work in a prominent place where it can be easily seen and read by persons employed in the performance of such contract. In addition, copies of the minimum hourly wage requirement shall be supplied to any person employed in the performance of a service contract at the request of such person and within a reasonable period of time after the request.
- B. The Department of Public Works will review and monitor all public works service contracts for compliance. Complaints from service contractors and service contract employees relating to compliance will be received and investigated by the Department with imposition of appropriate sanctions upon any contractor who provides false information or fails to comply with the provisions of this ordinance.
- C. Any person employed in the performance of a DPW service contract as defined in II B may, within one year from the date of an alleged failure to comply, fill a written complaint to the Department of Public Works regarding the failure. No service contractor may discharge, reduce the compensation of, or otherwise retaliate against any person employed in the performance of a service contract for making a complaint to the Department of Public Works or for using any civil remedies to recover damages.

D. Right to Appeal.

Any service contractor or service contract employee who objects to any decision or action of the Department of Public Works relative to application or enforcement of this ordinance may appeal such decision to the Administrative Review Appeals Board. The appeal shall be initiated in writing and sent to the Commissioner of Public Works. The appeal shall state the specific objection to the decision or action, include supporting documentation, and specify an alternative recommendation. The Commissioner of Public Works shall schedule a hearing before an appeal's committee consisting of the Chair of the Economic Development Committee or the Chair's designee, a member of the Economic Development Committee selected by the Chair, and the Director of Equal Opportunities Disadvantaged Business Enterprise to be held within five (5) days of receipt of the appeal. The Committee shall have the authority by majority vote to affirm or set aside the recommendation of the Commissioner of Public Works and its decision in this regard shall be final.

Exhibit B1:
Residents Preference Program

**City of Milwaukee
Department of Public Works**

Residents Preference Program Provisions

I. General

- A. In accordance with Chapter 309 of the Milwaukee Code of Ordinances, residents preference hiring is required for all construction contracting activities of the Department of Public Works. The ordinance requires that 40% of WORKER HOURS worked on a DPW contract be performed by UNEMPLOYED or UNDEREMPLOYED RESIDENTS of the City, except in special cases where the Commissioner of Public Works determines there is sufficient reason to impose lesser levels of participation. Further, the Commissioner of Public Works may increase the percentage of RESIDENT worker participation to more than 40% on specific contracts. For this contract, bidders are required to show that a minimum % of WORKER HOURS will be performed by UNEMPLOYED or UNDEREMPLOYED RESIDENTS of the City. Up to one-third of required worker hours may be achieved by documenting the use of UNEMPLOYED or UNDEREMPLOYED RESIDENTS on projects undertaken by the contractor where such compliance is not required, or by hiring UNEMPLOYED or UNDEREMPLOYED RESIDENTS on a full-time permanent basis for non-construction job categories connected to the project. Such adjustments must be proposed in an affidavit on a form provided by the department setting forth the facts upon which the request for adjustment is based.
- B. The contractor, prior to commencing work, shall submit an affidavit (Form I) for proof of residency for all employees utilized by the contractor and subcontractors to meet the Residents Preference Program requirements, stating that each employee is either UNEMPLOYED or UNDEREMPLOYED and is a RESIDENT of the City. The contractor shall prepare and submit accurate and timely resident utilization forms and reports to the Department of Public Works. Time Reports shall be submitted within ten (10) days following completion of work, or every three months, whichever comes first. The reports shall identify the name, address, race, gender, work classification, wage rates and hours worked of all employees utilized on the contract by the contractor and all subcontractors. Failure to submit the required forms and reports to the Department of Public Works may result in disqualification of future bids, delay of payments, or other appropriate sanctions. Final contract payments will not be made until the summary of hours worked on the back of the Prime Contractor's Affidavit of Compliance is completed and on file with the Department of Public Works.
- C. During the performance of this contract the Department of Public Works reserves the right to conduct compliance reviews. If the contractor is not in compliance with the specifications, the Commissioner of Public Works will notify the contractor in writing of the corrective action that will bring the contractor into compliance. If the contractor fails or refuses to take corrective action as directed, or if the contractor, prime or sub, submits any documents which contain any false, misleading, or fraudulent information, or if the contractor or subcontractor fail to comply with this ordinance, the Department of Public Works may take one or more of the actions listed below.
1. Withhold payments on the contract.
 2. Terminate or cancel the contract, in whole or in part.
 3. Consider possible debarment of the contractor from bidding for a period of up to two years.
 4. Any other remedy available to the City at law or in equity.

- D. The penalty for any person, firm, or corporation knowingly engaging in fraud, misrepresentation, or in any attempt directly or indirectly, to evade the provisions of this ordinance by providing false, misleading, or fraudulent information shall, upon conviction, forfeit not less than \$1,000 or more than \$5,000 together with the costs of prosecution and, upon default of payment, shall be imprisoned in the county jail or house of correction not to exceed 90 days, or until the forfeiture costs are paid.

II. Definitions

- A. RESIDENT – A person who maintains his or her place of permanent abode in the City of Milwaukee. Domiciliary intent is required to establish that a person is maintaining his or her place of permanent abode in the City. Mere ownership of real property is not sufficient to establish domiciliary intent. Evidence of domiciliary intent includes, without limitations, the location where a person votes, pays personal income taxes, or obtains a driver's license.
- B. UNEMPLOYED or UNDEREMPLOYED – a RESIDENT that has worked less than 1,200 hours in the preceding 12 months or has not worked in the preceding 30 days or, regardless of employment status, has household income at or below the federal poverty guidelines as adjusted by the Wisconsin Department of Public Instruction to define eligibility for reduced lunch in public schools. A RESIDENT will continue to qualify as unemployed or underemployed for five (5) years from the date he or she first participates in a contract under Chapter 309. If a RESIDENT becomes an apprentice for a contractor or becomes a participant in an on-the-job training program as determined by the City immediately after or in the course of performing on a particular construction contract, he or she shall continue to qualify as unemployed or underemployed for a period not exceeding 5 years from the date the person became an apprentice or participant in such on-the-job training program.
- C. WORKER HOURS – means the total hours worked on a construction contract by skilled and unskilled construction trade workers, whether those workers are employed by the contractor or any subcontractor. In determining the total worker hours to be furnished at a construction site, the number of hours devoted to all tasks customarily performed on a construction site shall be included, whether or not such tasks are performed on the construction site. "Worker hours" includes work performed by persons filling apprenticeships and participating in on-the-job training programs and excludes the number of hours of work performed by all non-Wisconsin residents.

III. Residency Utilization Requirements

- A. The contractor shall utilize UNEMPLOYED or UNDEREMPLOYED RESIDENTS of the City in a minimum amount equal to the percentage of the WORKER HOURS stated in paragraph IA above.
- B. The contractor, by signing and submitting a bid, certifies that it understands the provisions of Chapter 309 and knows of and intends to comply with them, and shall ensure that all subcontractors are also informed.
- C. The contractor shall maintain, and shall ensure that all subcontractors maintain, personnel records listing the name, address, race and gender of all employees utilized for this contract and any records demonstrating that the employees utilized by the contractor in meeting the residency requirements are actual residents of the City. These records

shall be maintained for seven (7) years after the contractor has received final payment under the contract and shall be made available to the Commissioner of Public Works upon reasonable notice.

- D. Compliance with these residency requirements is an element of bid responsiveness. Failure to meet the specified residency requirements will render the bid unresponsive, and the Commissioner of Public Works may then recommend the award to the next apparent low bidder.
- E. The City recognizes the following three organizations which can be contacted for access to trained or qualified workers from the City. Other organizations or sources of qualified RESIDENTS can be used at the bidder's discretion.
 - 1. Milwaukee Urban League, located at 435 West North Avenue, Milwaukee, WI 53212. Telephone number 414-374-5850 Ext. 103, fax number 414-374-1995.
 - 2. Big Step, located at 3841 West Wisconsin Avenue, Milwaukee, WI 53208. Telephone 414-342-9787, fax number 414-342-3546.
- F. If the prime contractor has problems in meeting the residency requirements or if any other problems relative to residency participation arise during the completion of this project, the prime contractor shall immediately contact the Commissioner of Public Works.
- G. Right to Appeal – All contracts awarded under ss. 7-14-2 and 7-22 of the City Charter shall be awarded by the Commissioner of Public Works to the lowest responsible bidder determined in accordance with any applicable City ordinances relating to the participation of Emerging Business Enterprise Programs or requiring participation of City RESIDENTS. Following the opening of any bid where the Commissioner has considered compliance with such City ordinances, the Commissioner shall publish in an official City newspaper his or her determination as to the lowest responsible bidder. Any bidder who objects to the determination based on the consideration of such City Ordinances, may appeal the recommendation by filing a written appeal with the Commissioner within five (5) working days of the date of publication. The appeal shall state the specific objection to the determination, including supporting documentation, and specify an alternative determination. Any appeals that do not conform to this section shall not be considered. The Commissioner shall schedule a hearing before the Public Works Contract Appeals Committee which shall be comprised of the chair of the Economic Development Committee or his or her designee and a member of the Economic Development Committee selected by the chair and the Director of Administration or his or her designee to be held within five days of receipt of the appeal. The Public Works Contract Appeals Committee shall have the authority by majority vote to affirm or set aside the determination of the Commissioner and their decision in this regard shall be final. In the event that a timely appeal meeting the requirements of this paragraph is not filed, or the Committee affirms the Commissioner's determination following a timely appeal, the Commissioner shall make an award in accordance with his or her determination.

Exhibit C:
Prompt Payment Ordinance

NOTICE TO CONTRACTORS

Effective immediately, the City of Milwaukee has adopted an ordinance relative to Prompt Payment as follows:

2.9.16.b) It is the City's policy to pay all invoices within 30 days. If the City does not make payment within 45 days after receipt of properly completed supporting payment and other required contract documentation, the City shall pay simple interest beginning with the 31st calendar day at the rate of one percent per month (unless the amount due is subject to a good-faith dispute and, before the 45th day of receipt, notice of the dispute is sent to the contractor by first-class mail, personally delivered, or sent in accordance with the notice provisions in the contract). If there are subcontractors, consistent with s.66.0135(3), Wis. Stats., the prime contractor must pay the subcontractors for satisfactory work within seven days of the contractor's receipt of payment from the City of Milwaukee, or seven days from receipt of a properly submitted and approved invoice from the subcontractor, whichever is later. If the contractor fails to make timely payment to a subcontractor, the contractor shall pay interest at the rate of 12 percent per year, compounded monthly, beginning with the 8th calendar day.
