

TO: All vendors considering submitting proposal to the City of Milwaukee's Official Notice 01-2014 for Remote Parking Payment (RPP Technology)

FROM: Cindy Angelos, Parking Finance Manager

RE: Responses to second group of questions from vendors dated August 19, 2014

DATE: August 19, 2014

1. Will the vendor be responsible for processing debit or credit transactions as a merchant? Or will the vendor tie into the existing capabilities of debit or credit transaction processing?

*The RFP does not preclude either option.*

2. Will you be considering companies that are not head quartered in Milwaukee however have strong business relationships in Milwaukee?

*The RFP does not preclude companies from outside Milwaukee from proposal submission.*

3. Can you supply sample data files and protocol info for your meters, TID's and parking application?

*Vendors must contact the meter (DPT and Duncan Solutions) and the TID (Duncan Solutions) manufacturers to obtain the information requested.*
